

Liquid GRAVITY

Deluxe Materials are delighted to announce Liquid Gravity, a brand new non-toxic weighting system for models railway rolling stock, radio control models.

This is specially designed to pour into and fill small cavities and set in place with an applied adhesive.

Thus it will:

- Improve stability of models and miniatures
- Adjust centre of gravity of miniatures planes and boats,

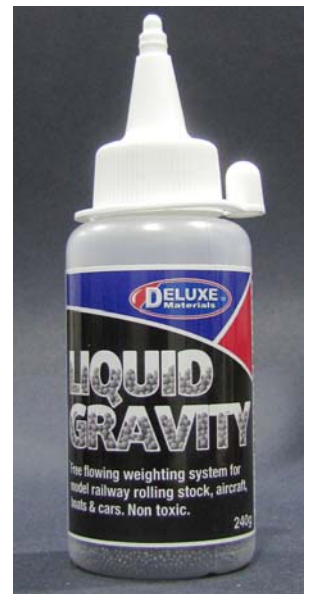

John Bristow International Marketing Manager said, "Our modelling range products are highly regarded for their fine quality and ease of use. With the phase out of lead based products from all types of modelling, we felt the market was ready for an easy to use non-toxic alternative. Hence **Liquid Gravity** "

Liquid Gravity has a recommended retail price of £7.99 (240g)

LIQUID GRAVITY MASTERCLASS

PUT ROKET CARD GLUE IN THE FLOOR OF THE WAGON AND POUR IN THE REQUIRED AMOUNT. IT IS NECESSARY TO ESTABLISH THE AMOUNT REQUIRED. TYPICALLY 1/4oz IS SUFFICIENT EXTRA WEIGHT FOR A OO WAGON
