

ASSEMBLY INSTRUCTIONS

1. Glue in all the windows and doors EXCEPT the shed doors.
2. Assemble the four main walls, (front, back and sides).
3. Insert shed doors, (trim one side as necessary).
4. Glue each pair of shed walls and add to the appropriate extended side. Add roof.
5. Assemble porches and fit behind each arch.
6. Attach gable base above bay window.

7. Assemble and fit main roof.
8. Attach triangular gables to the front edge of gable bases, then fit gable roofs.
9. Assemble chimney and position in centre of main roof.

All normal polystyrene cements are suitable for assembling this kit.
